

Military Specialty: Special Forces

Requirement: Approval of request by command authority with the consent of a Special Forces Squad Leader for acceptance into squad; must be a Corps member of three months duration prior to request

Description: Not all objectives are obtained by overwhelming force. Not every victory is obvious, nor on a battlefield. Where conventional forces fail, special forces personnel excel. Combining basic military skills with emphasis on small group/individual action, Special Forces teams operate beyond the front lines to achieve mission goals through quick, distinct action with minimal resources, personnel, and oversight. Though the risks are far above that of common mission types, the benefits are typically generous.

Equipment: Mission-specific; following is basic load-out:
Storm Commando armor, Stormtrooper II carbines, silenced projectile pistol, Hieb & Stich knife, grenades, and Special Forces kit

Possible MOS path(s): 18B Weapons Specialist
18C Engineering Specialist
18D Medical Specialist
18E Communications Specialist
18F Intelligence Specialist
18I Infiltration Specialist
18U Unconventional Warfare Specialist
